History
People Who Changed The World

How is this person famous across the world?

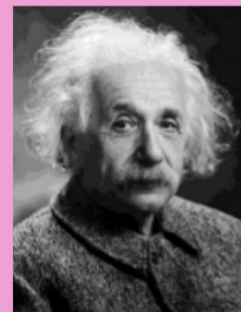

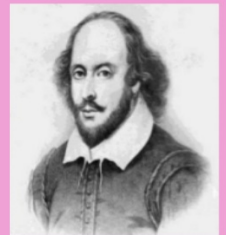

Thank you, Nico in 6B
for this wonderful
picture.

The death of George Floyd has caused huge protests in the US and around the world. George Floyd was an African American man who died after being held by police on the 25th May 2020. Officers suspected him of doing something wrong and held him down by kneeling on his neck. Despite saying that he couldn't breathe, he wasn't released and soon afterwards, he died. This has again raised the issue of racism in American society because black people are treated unfairly.

As this has just happened, we don't know yet if George Floyd's death will change the world. Let's hope that his tragic death does change the world for the better.

Have a think about names of famous people that you would say have changed the world in the past. Write down a list of names and a brief explanation of why you think they changed the world. There are some picture clues here to help you.

But there are many more...
